

SIMEON SIAKA

DevOps Engineer | AWS · Terraform · Docker · GitHub Actions CI/CD

Lagos, Nigeria (Remote) | +234 806 782 7549 | simeonvault@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

DevOps Engineer with hands-on experience managing AWS infrastructure (EC2, S3, VPC, IAM, RDS, CloudWatch), writing Terraform, containerizing with Docker, and building CI/CD pipelines in GitHub Actions. Comfortable with Linux, Bash and Python automation, and monitoring and incident response. Experienced working remotely and asynchronously, with written runbooks and incident documentation for the wider engineering team. Looking to take real ownership of infrastructure on a small, fast-moving engineering team.

TECHNICAL SKILLS

Cloud (AWS): EC2, S3, RDS, VPC, IAM, CloudWatch, Lambda, DynamoDB, EKS, Secrets Manager; Azure fundamentals

Infrastructure as Code: Terraform (modules, variables, remote state)

Containers: Docker (building and running containers); Kubernetes (EKS) and Helm

CI/CD: GitHub Actions; ArgoCD (GitOps); basic GitLab CI; blue-green and canary releases

Monitoring & Alerting: Amazon CloudWatch; Prometheus and Grafana

Linux & Scripting: Linux administration, Bash, Python, shell automation

Databases: SQL fundamentals; RDS

Networking & Security: VPC design, subnetting, load balancing; least-privilege IAM, OIDC/STS federation, OPA/Rego

PROFESSIONAL EXPERIENCE

DevOps Engineer — Springer Capital

Jun 2026 – Aug 2026

Remote · 3-Month Contract

- Automated routine infrastructure tasks on Linux servers with Bash scripts, cutting repetitive manual work
- Used Terraform to provision and manage cloud resources as code
- Maintained CI/CD pipelines and troubleshoot failed deployment runs to keep releases moving
- Worked with developers and infrastructure engineers to keep software delivery reliable and repeatable

AWS DevOps Engineer — Zetheta Algorithms Private Limited

Dec 2025 – May 2026

Remote · 6-Month Internship

- Built automated testing and compliance checks into the CI/CD pipeline of a regulated digital banking environment (GitHub Actions)
- Provisioned Kubernetes (EKS) infrastructure with Terraform and supported GitOps deployments through ArgoCD and GitHub Actions
- Implemented blue-green and canary release steps as part of a wider deployment strategy
- Applied policy-as-code (OPA/Rego) for RBI and PCI-DSS compliance checks, reducing manual review steps
- Co-authored deployment runbooks and incident response documentation used by the wider engineering team

CERTIFICATIONS & EDUCATION

- Microsoft Certified: Azure Fundamentals (AZ-900)
- AWS Cloud Solutions Architect and AWS Cloud Support Associate Professional Certificates (Coursera)
- IBM Applied DevOps Engineering and DevOps and Software Engineering Professional Certificates (Coursera)
- Microsoft Cloud Support Associate Professional Certificate (Coursera)
